### Microbiology
- Aerobic Culture
- Systemic Susceptibility
- Topical Susceptibility
- Anaerobic Culture – NO Susceptibility
- Bacterial Isolate ID w/ Susceptibility
- Blood/Joint Culture – Submit in bottles
- Dermatophyte Culture
- Filamentous Fungi Isolate ID
- Fungal Culture
- Mycobacterium Culture
- Mycoplasma Culture
- Mycoplasma acid fast stain
- Yeast Isolate ID

### Fecal Pathogens
- Campylobacter spp. Culture
- Clostridium difficile Culture
- Clostridium perfringens
- Enterotoxin ELISA
- Enterohemorrhagic E. coli Screen
- Salmonella Culture
- Shigella Culture
- Yersinia Culture

### Serology
- Heartworm antigen DIROCHEK ELISA
- Equine Infectious Anemia
- STAT Equine Infectious Anemia
- Feline Heartworm antibody
- Rotavirus Antigen ELISA

### Parasitology
- Baermann Technique
- Fecal Flotation
- Parasite ID
- Taenia whipworm antigen ELISA
- Trichomonad Culture
- Yeast Isolate ID

### Stains
- Cryptosporidium modified acid fast stain
- Gram stain
- Mycobacterium acid fast stain

---

### Sample Source (REQUIRED):
- Collection Date: __________
- If urine please specify:
  - Cath □ Voided □ Cysto
- ANTIBIOTIC TREATMENT WITHIN 72 HOURS □ Yes □ No
  - If yes, list:

---

**Confirmation of ID by molecular methods or susceptibility testing are performed by reference laboratories upon request. Additional fees will apply.**

**Contact laboratory prior to submission**

---

This form does not include all tests performed by the Clinical Microbiology, Serology, and Parasitology laboratory. For a full list of tests offered, please visit the website or contact our Central Receiving department at 352-294-4726.
